

The simple fact of the matter is that our lpfm station is ALL LOCAL PROGRAMMING! Not some, or most, but all! But because these choices are made by the local community we would be free to bring in programming produced elsewhere if we wanted to.

In the few months that WSCA LP has been on the air dozens of locally produced programs have come on the air from a retired lawyer hosting a local talk show to local musicians, poets, and writers getting the access they never had before. Commercial stations think that an occasional psa about a bake sale is serving the needs of the local community adequately. WSCA has, for example, 4 hours of programming every Thursday devoted exclusively to local artists: from 6-7pm CULTURE WAVES has guest artists talking about their work, from 7-9pm HEAR US OUT has 2 hours of exclusively local music, and from 9-10pm live music/cd's complete/guest d.j.s also exclusively local music. This is simply not availble elsewhere.

Other shows present a wide range of music and information not available anywhere else on the dial, and all this after only a few months on the air!

If there was an underserved segment of the local community that couldn't get programming elsewhere, this is the place they could get it.
